First off, if you don't know what Dr Drum is, then to check it out (opens in a new window and you will also be able to see what I am talking about).. My name is Marcus from and I've been making my own beats for about 4 years now.. I gave free beat makers a try only to find out they were either CRAP! Or they disabled all the features you need to actually make a beat until you paid to upgrade.

Before writing this review I had been using version 2.0 of the software and only just upgraded (free) to the newer version 3.0 last week. Man I have got to say, it kicks ASS! There are some really cool new features which has made the program so MUCH BETTER!! Dr Drum Beat Maker.. I've been using it ever since because it is just so much easier and faster to make the beats I want to make.
